Introduction

Noon … is a popular e-commerce platform and online marketplace that operates primarily in the Middle East. It was founded in 2017 and has quickly gained recognition as a leading online destination for a wide range of products, including electronics, fashion, beauty, home appliances, and more.

Objectives

1. Provide a Wide Range of Products: The primary objective of the Noon website is to offer customers a diverse selection of products across various categories.
2. The website is designed to be intuitive and easy to navigate, enabling customers to browse and purchase products conveniently.
3. Offer Competitive Prices and Promotions: Noon strives to provide customers with competitive prices and attractive deals.
4. Expand Market Reach: Noon's objective is to expand its market reach and become a dominant player in the Middle East e-commerce sector.
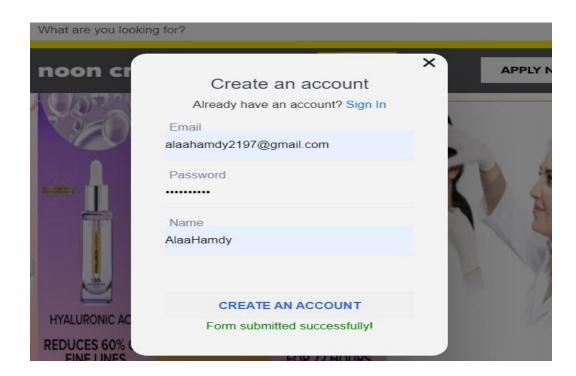

Development requirements

1. HTML5
2. CSS3
3. Bootstrap5
4. JavaScript

3-Cart Cycle

### If you want to add number of products to cart

If you want to checkout payment

If you want to remove product

Future improvements:

1) Add Admin Full Dashboard

-Have access to all products on the site

-Can create update delete any product

-Add new categories

-Get all users

-Confirm the new hosts on the site

-Have access to all sales and confirm it and the revenue and the stock

2) Add new user named host

-Who is more than a regular user and less than administrator

-He is a seller who want to show his products on the site

-Have some privileges of creating his own products

- Updating and delete

-Confirm sales requests and his own revenue
